PROFESSIONAL SUMMARY

Computer Science undergraduate focused on Java backend development, with hands-on experience building REST APIs, secure backend systems, and database-driven applications using Spring Boot. Foundation in DSA, OOP, and DBMS, with practical project, internship, and client-delivery experience.

EDUCATION

Bachelor of Engineering (B.E.) in Computer Science (Sep 2024 - Aug 2028)

RV Institute of Technology and Management

CGPA: 8.6/10.0 | COMEDK UGET Rank: 3,600

TECHNICAL SKILLS

Programming: Java | SQL | C | Python | JavaScript

Java & Backend: Spring Boot | Spring MVC | Spring Data JPA | Hibernate | JDBC | REST APIs

Security: Spring Security | JWT

Databases & Caching: MySQL | Redis

Core Computer Science: Data Structures & Algorithms | OOP | DBMS | Operating Systems

Tools: Git | GitHub | Maven | Postman | Docker

Frontend: HTML5 | CSS3

INTERNSHIP EXPERIENCE

Data Science Intern - 1Stop.ai | Mar 2025

- Developed a Hate Speech Detection project using Python and machine learning techniques for text classification.
- Performed text preprocessing, model training, evaluation, and classification as part of an end-to-end data science workflow.

PROJECTS

VenueReserve - Venue Reservation Platform | Apr 2026 - Sep 2026

Tech: Java | Spring Boot | Spring Security | JWT | Spring Data JPA | MySQL | REST APIs

- Built a RESTful backend for venue listing, booking, cancellation, and role-based operations using Spring Boot and MySQL.
- Implemented authentication and authorization using Spring Security and JWT for customer, owner, and admin roles.
- Developed booking conflict detection, automatic price calculation, and instant booking confirmation logic.

FinSync - Distributed Banking Platform | In Progress

Tech: Java | Spring Boot | Kafka | Saga Pattern | REST APIs

- Building a banking backend with separate services for account management and fund transfers.
- Implementing asynchronous communication using Kafka and exploring distributed transaction handling using the Saga pattern.
- Working on failure handling, secure transactions, and service-to-service communication.

ADDITIONAL EXPERIENCE & ACHIEVEMENTS

- Delivered **10+** live websites for clients, including e-commerce and appointment-booking platforms.
- Solved **100+** Data Structures and Algorithms problems on LeetCode.
